TO WHOM IT MAY CONCERN:

I have known Tom Winton for the past five years or so, and during that time have used his services and expertise to help me in my photography business.

He has always been dependable, responding to our problems and questions in a timely manner. He has been patient with me, a computer novice. His knowledge of web sites and web site building has been invaluable to my business.

Tom Winton would be a definite asset to any business lucky enough to employ him.

For additional questions or information, you may contact me at the above address or telephone number, or via the email address below.

Sincerely,

*Dick Krueger*
