

To: Whom it may concern

It gives me great pleasure to send you this strong letter of recommendation, for Adam Thomas Winton, who may be applying for employment at any firm. Myself and my entire large family have known Adam for several years and we all have had the pleasure of receiving his outstanding professional computer services during this period of time. Adam has installed complete computer systems , repaired down computers and installed programs including keeping our computers current "Tweaked Up" if you will. He has made himself available on short notice to provide technical help to many of us. All services at fair prices and follow up checks if necessary taken care of by him.

For your information I am a retired Submarine Commander , still working as an Air Quality Manager, so over the years in and out of the military, in Command and Management position I feel very qualified to make judgement on people, be it technical expertise, or other. You have the opportunity to bring aboard your staff Adam and I can assure you he will be an asset to your firm . You will not regret hiring this man.

I appreciate your time in reviewing my recommendation.
